## **Abstract**

This essay is a sincere call to all potential whistleblowers of the global military-intelligence complex to come forth and share intel with the Hyperborean Circle (HC) on the imminent threat of psychotronic warfare-systems being deployed worldwide.

The essay continues the line of thought established in our previous range of essays on the topics of occult physics, spiritual energies, and psychotronic warfare.

Especially, see the recent essay on a framework for the scientific study and defense of spiritual energies (Riis-Søndergaard, 2026b), and the other recent open letter to the scientific community, being a primer on the threat of psychotronic weapons (Riis-Søndergaard, 2026a).

In this essay, we lay down the argument for supporting the Great Cause for potential whistleblowers to make their stance clear in the face of the urgent threat of psychotronic warfare deployment by the Deep State – a threat, we have been fighting since the Hyperborean awakening in 2016.

Consider this open letter an impetus for furthermore engaging with the HC to study spiritual energies, to build a defense to psychotronic weapons, and to make your stance clear in the light of the Immortal Heart – a saving grace.

We encourage all allies in the military-intelligence complex to make contact to the HC leadership.

## **Author's preface**

What became of the resistance that was so forceful during the “stand-down in the occult war of 2016”? In the immediacy of Trump (MAGA-movement) gaining power in 2016/2017, the Aryan Order (AO) of Denmark, the rest of Scandinavia, and Germany arose.

The ethereal gathering of the Hyperborean Siddhas was immense, when the clouds lifted, and a clear ethereal sky became visible – free from psychotronic aggression and suppression.

Since 2021, we have again struggled with the effects of psychotronic warfare – the aether has almost been completely shut down, at least for the leadership of the Hyperborean Circle (HC).

This is an (occult) war for spirit, for soul, for heart – for the spiritual energies of the Hyperborean Siddhas.

Will anyone in the know deny this claim of the Siddhas as of today?

In this essay, we seek to bring renewed awareness to the occult war against Skynet, and encouragement to the resistance from Japan, over India, over Russia, to Europe, and to the US, so that we may again rise up to resist the nefarious schemes of the Deep State apparatus of the principalities of darkness, who have once again made their sway of spiritual suppression across the globe.

What is the nature of the beast we are fighting? How can we resist the plotting of those “keepers of secrecy”, who today wield a lot of power in world politics, namely the military-intelligence-techno complex of the Deep State?

In this essay, we encourage insiders of the global Deep State, the military-intelligence complex, who are still aligned with the Heart, to come forth, and share their intel with the HC, so that we may together resist the nefarious plot of the psychotronic Skynet operators, who for sure have no good intent for spiritual mankind.

Please, do share what you know with us, so that we may further the Great Cause of resistance to the so-called Demiurgical system of systemic, spiritual suppression.

We begin the essay with a quote from J.F. Kennedy on the threat of excessive secrecy, so that potential whistleblowers may know the right thing to do in regards to the cause of defending humanity from the encroachment of evil.

## **The threat of secrecy – Why whistleblowers on psychotronic warfare are needed**

Let's begin this open letter with a full quote from J.F. Kennedy (1961) on the threat of secrecy:

The very word 'secrecy' is repugnant in a free and open society; and we are as a people inherently and historically opposed to secret societies, to secret oaths and to secret proceedings. We decided long ago that the dangers of excessive and unwarranted concealment of pertinent facts far outweighed the dangers which are cited to justify it. Even today, there is little value in opposing the threat of a closed society by imitating its arbitrary restrictions. Even today, there is little value in insuring the survival of our nation if our traditions do not survive with it. And there is very grave danger that an announced need for increased security will be seized upon by those anxious to expand its meaning to the very limits of official censorship and concealment. That I do not intend to permit to the extent that it is in my control. And no official of my Administration, whether his rank is high or low, civilian or military, should interpret my words here tonight as an excuse to censor the news, to stifle dissent, to cover up our mistakes or to withhold from the press and the public the facts they deserve to know.

From this quote of Kennedy, we get an idea of why whistleblowers may at times be urgently needed, and of why they are justified in telling what they know, for the danger of excessive secrecy is that the keepers of secrecy will fall into a "private logic" of their activities, and remove themselves further and further from the bright light of public scrutiny and justice. In that sense, the words 'secrecy' and 'conspiracy' are not far off – the danger of secrecy is that it will turn into a conspiracy for those in the know.

Today, we face a situation, where not even the US president has full awareness of the ongoing of the Deep State Black Projects, the SAPs and USAPs (Unacknowledged Special Access Programs) of the military-intelligence complex. The president is denied knowledge of these programs on the basis of the doctrine of "need to know" and "plausible deniability" – this is the Deep State.

As the clandestine Deep State removes itself further and further from public awareness, the danger is that their operations become increasingly slurred by a private logic of what counts and what is needed – "state security" becomes in this sense "private security" – legitimacy and responsibility become caught up in an ever increasing privatized, self-contained logic and order of necessity – the so-called "politics of necessity", which is also the danger of the concept of "continuity of government (COG)" (Scott, 2017).

The problem is that if the logic of secrecy becomes private, then the oath to "defend the constitution from enemies foreign and domestic" equally takes on a private character, because congressional oversight is abandoned, and public scrutiny is abhorred by the keepers of secrecy – now, only very few people decide who the enemies are, and the danger is that those few people are compromised by "private interests", for there is no one above them (president, constitution, or congress) to keep oversight – the "will of the people" is removed from actual affairs. Can we trust these keepers of secrecy that much? It should be obvious that when there is no accountability, the chance that the system might act in a renegade way becomes exponentially greater.

In this essay, we will make the argument that this is exactly the situation we face today, when oversight of the Deep/Dual/Shadow State is lost, and we increasingly face the threat of psychotronic warfare-systems – with the help of quantum-computers and AI, few people are now able to cause massive damage with the click of a button – an unprecedented threat to justice. Let's now develop the argument.

## A scanner darkly – Skynet and the resistance

Now, the title of this essay is taken from Philip K. Dick's novel (1977) of the same name, later made into a film (Linklater, 2006). In the novel, the main character is under constant electronic surveillance, which eventually makes his mind fragment – this could be seen as a novel on the threat of the “technetronic era” (Brzezinski, 1970), the “control society” (Deleuze, 1992).

When we use this title, we imply two things:

1. The reality of the psychotronic Skynet, “scanning humanity” (mind/soul/(light-)body) to plan efficient attacks – the total and deep penetrating surveillance-grid, which has now been turned into a control-grid by the development of psychotronic warfare-systems.
2. The mission of the Hyperborean Circle (HC) to “heuristically scan for nodes of resistance”, ethereally and physically, and to encourage increased cooperation in the resistance, for example by calling for whistleblowers to make contact with our community.

All this is of course “darkly”.

In this essay, we will focus on the latter meaning, namely to gather, strengthen and encourage the resistance. We have previously written a range of essays on the nature of the threat, and you are advised to see our recent primer on the threat of psychotronic weapons in Riis-Søndergaard (2026a), where we also give links to the previous 6 essays we have written on the topics of occult physics, spiritual energies, and psychotronic warfare. Also, we have recently released an essay on how to build a framework for the scientific study and defense of spiritual energies in Riis-Søndergaard (2026b), the Blue Tone Enterprise, which is our flagship-project.

When for the psychotronic warfare-grid we use the term Skynet, this is inspired by the classic film *The Terminator* (Cameron, 1984). This was a visionary and gruesome film, but the reality today is equally terrible, when you think about the *actual* nature of the Skynet, namely that the psychotronic grid works to suppress the spiritual energies and collective psyche of the Hyperborean Siddhas, the leadership of the Aryan Order (AO), whom I represent. We talk here about the psyche, the Light-Body, Kundalini, Vril, Chakras, especially the Crown-Chakra, but the full range of spiritual energies, which we have discovered and know of so far.

But the Heart-Chakra is untouchable, since being purely transcendental, so we are still going strong, and we will never tolerate this immense and terrible aggression against the essence of the soul, the Soul-Light-Body and other spiritual energies of the Hyperborean Siddhas.

From a phenomenological and experiential perspective, we absolutely *know* of these attacks on our psyche and energies, but empirically, we have limited knowledge of the attacks, though we have proper theses on the nature of the attacks.

This essay is meant to encourage whistleblowers to make contact with the HC to disseminate knowledge of the actual reality and nature of the operation of the psychotronic Skynet – empirics, technology, and agenda of the Skynet operators.

One logical thesis is this: Since the Deep State is able to attack our spiritual energies, the empirical science of these energies is known, only kept hidden in the nefarious Black Projects. We propose that this knowledge must be made public, which will then cause a massive spiritual revolution for mankind – but are the “globe holders” ready for this revelation? It doesn't seem so, since the secrecy on the topic and the conspiracy to attack our energies are still intact. Let's break down this silence, so that we may finally be free, and usher in the “New Ethereal Atlantis” – a spiritual golden age of mankind.

## **What did Tesla know, and why was his aether-science suppressed? – Tesla-towers as psychotronic weapons**

When the Aryan Order (aka. HC) first awoke in 2016, we were told in the “psychic aether” (Riis-Søndergaard, 2025a) that “they have built Tesla-towers on the Other Side”, ie. implying that these towers were psychotronic weapons, meant to attack the Aryan race, and that they were built in another, fallen dimension. This is of course a highly occult statement. Furthermore, we were told that our mission was “to build a defense to psychotronic weapons”. To be sure: Today, we know for certain that we are being targeted by these psychotronic weapons, which have become increasingly aggressive towards our leadership since our initial awakening. We have heard rumors that from 2016 to 2021 there was “a stand-down” in the occult war, but that since 2021 the “aetheric blockade” has been enforced again – this aligns with our shared experience in the AO.

Today, the attacks on our Crown-Chakras and Light-Bodies are terrible. In this essay, we don’t want to dwell too much on the effects of the attacks, which we have explored in other previous essays, but we tell you: The attacks are very serious – nothing that could ever be tolerated by any good man.

Rather, we wish to dwell on the advanced scientific paradigms that make the possibility of psychotronic warfare real, for this is primarily the information we seek, so that we may be able in long-term strategy to build a defense.

We have been informed that Tesla was warned before his death by the Aryans of the danger that “his science could fall into the wrong hands”, and be used to attack the spiritual energies of the Siddhas. Now, when we have been informed of this history of the development of Tesla’s aether-science, and we today face this military-strategic situation of being attacked by psychotronic weapons, should we not pay absolute attention? Is this not the absolute frontier of war in the 21<sup>st</sup> ct. – the war of the soul? Furthermore, we were told that the National-Socialist regime of Germany, in the run-up to the Second World War, discovered an international plot to attack the Aryan race with Tesla-towers – hence the fierceness of the war.

Putin is quoted as saying that “those who first master psychotronic warfare are set to rule the world”.

Is this not exactly the situation we face today?

Tesla’s aether-science is related to scalar waves and torsion fields (Vassilatos, 1997). We should investigate these scientific frontiers further, and therefore we seek information from whistleblowers as to the state-of-the-art of psychotronic warfare.

What is the intersection of quantum physics, spirituality, and spiritual energies?

Is it possible to telemetrically track the Light-Body, Crown-Chakra, Vril, and Kundalini? It is possible then to interfere in and suppress those energies?

What is the intersection of occult war, technology, and spiritual energies? These are some of the questions we seek answers to.

Whistleblowers *must* come forth and make contact with the Siddhas, so that we may uproot this nefarious conspiracy, and be able to defend ourselves from the worst crime of history, namely the attack on the soul, which by consequence affects the whole of mankind, namely the collective, spiritual fabric of the Holy Spirit and the World-Soul.

The Russian military-spiritual elite is also quoted as saying that “psychotronic warfare is warfare against God”, and we have occult information that Putin has resisted the deployment of those weapons on Russian territory. Right now, Putin may be our best ally, but hopefully, MAGA-layers will follow.

## What is going on in the Deep State Black Projects, and what is their agenda?

Is it such a wonder that when the science and technology are developed, the principalities of darkness, the nefarious forces of subterranean history, will use that science and technology to attack the spiritual energies of the Siddhas? Has it not always been an (occult) war since times primordial?

Today, our main adversary is the so-called Deep State. But what is the nature of the Deep State? Is it not a sinister scheme to withhold knowledge and power from the public, and to conspire to subdue humanity in an ever increasing cybernetic control-and-command system (Wiener, 1948) of the very fabric of the psyche (which would be the ultimate goal of the evil Demiurge (Rosario, 1985; 2022; 2023) – not mere physical discipline, but control of the psyche) – the so-called “technological singularity”?

But still, the soul is immortal (Plato, 4<sup>th</sup> BC; 385 BC), and the Heart is unconquerable, invincible.

So what is the Deep State actually trying to accomplish? Nothing but a death-drive, *Thanatos* (Freud, 1920), towards their own solitary fate of increasing irrelevance and spiritual non-existence, as opposed to the transcendental *Eros*, and forever grace, of the Heart of the Hyperborean Siddhas, and the good humanity – *Aufheben* (ecstasy/transcendence/ascension) (Hegel, 1807; Riis-Søndergaard, 2022a; 2025b).

So it is an eschatological battle between two opposing worldviews – *Aufheben* vs. technological singularity – this is the crux of the primordial, occult war today.

The Deep State should be seen as the long-term, strategic consequence of the ancient war of a genealogy of a faction (the fallen ones) that would never have the possibility of again aligning with the Great Cause, ie. salvation and redemption – they have been *cast away* in the Book of Life (Book of Revelation) – nothing less.

The question has often be posited – the *Theodicy*: Why is their evil in the world? Dostoevsky (1877) said that the first evil was “the Lie” (according to Rosario, the falsehood and illusion of the Demiurge). Is not the Deep State a tremendous lie? The Deep State says it protects “national security”, but with the other hand attacks the Crown-Chakras of the Siddhas of Scandinavia with advanced psychotronic weapons. Is this technological utopia? Of course not – it’s massive hypocrisy, falsehood, and evil.

Since MK-ULTRA, Project Monarch, Project Stargate, and Project Montauk, has not the US military-intelligence complex attempted the technological control of the psyche of man – brain-computer interfaces, etc.?

In the 1990’s, these programs officially “came to an end”, or, they *fell silent*... But, given what we now know of the advancement of technology and psychotronic warfare, it’s hard to believe that those programs actually ended, but rather only went deeper underground into the occult, metaphorical DUMBs’ (Deep Underground Military Bases) – rather, the techno-occult war has only exponentially intensified with the advancement of technological opportunities to a point where we today face the ominous Skynet.

Will the potential military-intelligence whistleblowers deny this claim of the Hyperborean Siddhas that we are facing the Skynet?

They cannot, for phenomenologically/experientially we know we are being attacked – there is no doubt versus a free, vital Crown-Chakra, and a Crown-Chakra under immense, quantum-computer, AI-driven, telemetric, scalar weapon attack.

So let the potential whistleblowers know that we (Hyperborean Siddhas) are determined and resilient.

## The hope for us (and for whistleblowers)

The hope for us (and the whistleblowers) is that *we can be saved*. Does not the song go: “Amazing grace”?

We hope we can align with the remnants of good people that are still enmeshed in the Black Projects, so that we may together embark for a new golden age, where the spiritual sciences are known, and where we are free from psychotronic attacks to build the “New Ethereal Atlantis”.

But it is crucial for our program (which you can read more about in our previous essays) that good people inside the Deep State begin to step forth to enlighten the world of the actual ongoing of the Black Projects’ sciences to redeem themselves, so that we may better understand the true nature of spiritual man, and the empirical proofs of the spiritual sciences – and the threats we are facing.

The goal is to build White Projects for the spiritual enlightenment and liberation of mankind – this is our mission. Should not scientific and technological development benefit the true heart of mankind, rather than being used for oppression, control, and domination?

We insist on this point, and this is why we now reach out to insiders of the Deep State to establish contact with the HC, so that we may together seek to liberate the good mankind from the thrall of spiritual suppression.

The true future is a spiritual future, and not some dystopia (Orwell, 1948), where divine love, soul and spirit are suppressed.

We are inspired by the work and engagement of J. Assange and E. Snowden to write this open letter. Did not these two figures from an ethical point-of-view, constructively seek to enlighten mankind on the threat of excessive secrecy turned into conspiracy?

The danger of the secrecy of the military-intelligence complex is that it will turn onto itself, and devour/prey on its own standards of commitment to truth, righteousness, and justice.

What we hope is that we will soon get evidence as to exactly who is behind the psychotronic warfare, perhaps multiple actors are involved. Of course, the usual suspects come to mind: CIA, MI6, and Mossad, but the chance is there that we are dealing with rogue, clandestine actors as well.

What we really hope is that the air-space will be defended by those who are supposed to do so.

Recently, Alex Jones of InfoWars (2025) had a guest on by the name of Jesse Beltran<sup>1</sup>, who is one of the few doing research on nanobots implantation for psychotronic targeting. He does frequency testing on subjects via. “RF analysis and Non-Linear Junction Detection (NLJD)”. Of course, we support this groundbreaking research, so we are happy that InfoWars gave them air-time. But we should not stop there. Right now, we mostly have rumors of the advanced psychotronic tech, but do indeed take a look at our other essays on the topics, starting with Riis-Søndergaard (2026a; 2026b).

The whole point of InfoWars is to mock the so-called New World Order (NWO), but at least the broadcast dares to say, what few others dare to – therefore we wish to credit Jones for his upright broadcasting in the fight for truth, righteousness and justice. Even though his views might be controversial, many independent intelligence analysts support his claims, so we are not far off here.

We were told in the occult aether that “the system is the NWO enforced by Tesla-towers”, so we encourage all potential whistleblowers to fight this nefarious “system” in their hearts, and make contact to the HC. Let these be our closing remarks, and thanks to all allies, who strive to support the Cause.
